# Maya News April – May 2017

Hello Maya members,

our annual banquet was held at wilderness archery in Rocklin. I'd like to thank Mike Woltering for letting us use his facilities year after year and for donating raffle prizes for our banquet. It looks like every year our banquet gets bigger and bigger. It was nice to see new members come out and enjoy themselves and meet new members. For those that attended our banquet we had some really cool raffle prizes.

At our banquet I was honored with a Life Membership award this was a big surprise to me. Throughout the years I've met a lot of good people made a lot of friends and that's one part of having a good club. There is lots of work that it takes to run a club but it doesn't happen without all you members that come out and help at the work parties. I do spend a lot of time out there but it's to make sure that the club looks nice and people are enjoying themselves and occasionally the headaches you get them but that's part of being the president you got to take the good with the bad for the most part it's all good. Again thank you very much for this award.

Work parties have begun to get the range ready for our annual around the world shoot that will be held on April 16. The range is looking good and it looks like we're on schedule this year. We have only a little bit of an animal repair to do, so we should have everything done on time.

On April 14 which is a Friday, we will be setting up the range for our annual shoot. For those who can come out

and help set up, we would appreciate it; we can use all the help we can get. This year due to flooding we are going to shoot a 28 target three arrow shoot and it falls on Easter. Hopefully we get a decent turnout. Now for Maya members, Saturday April 15 will be our club 3-D championship. If you want to come out and shoot all the animals that our guess are going to shoot on Sunday, come out Saturday and have a good time.

Registration will be from 7:30am to 9:00am.

Shoot will start at 9:00AM.

If you have any questions please email me or give me a call.

Well I think that all for this newsletter.

See you at the range.

Carlos R

California's 2017 general spring wild turkey hunting season opens statewide on March 25 and extends through April 30. Hunters using archery equipment may also hunt the two weeks after the general season (May 1-14). Hunters who have a current junior hunting license may also hunt the weekend before the opener (March 18-19) and the two weeks after the general season (May 1-14), using any legal method of take. The bag limit for spring turkeys is one bearded bird per day, three per season, combined. A current hunting license and upland game bird validation is required.

Dave baker

The folks at National Geographic just did a solid favor for all the adventurous outdoorsmen out there. They put every US Geological Survey (USGS) topographical map from across the United States on one easy-to-navigate site and made them easy to print out at home.

If you've ever gone hunting using topo maps via the USGS, you know that it can be a bit of a pain because, not only is finding the quad you're looking for more difficult, the PDFs they have available aren't formatted for standard printer paper.

The National Geographic website solves both of these issues. First, the homepage greets you with a searchable, interactive map: all you have to do is search for or zoom in on the area you're looking for. Then, once you find your quad, just click on it and a printable PDF loads right up. It's incredibly easy. I pulled this one up in a matter of seconds.

The printable PDF you get from Nat Geo is broken down into 5 pages. Page 1) is the quad in context; Pages 2-5 are the USGS Quads with one quarter on each page so you can print the whole thing on your office printer instead of going to a print shop.

Finally, National Geographic added one more touch to their version: hill shading was added to each quarter so you can better visualize the topography.

This isn't going to be useful for all, but if you're a hunter and uses topo's in the United States who likes to rough it, it makes getting topo maps a whole lot easier.

Use the following link... <http://www.natgeomaps.com/trail-maps/pdf-quadstted> for standard printer paper.

Maya Members,

We have implemented a new way in accepting guest fees now. We have incorporated the liability release on a printed envelope that can be sealed with the guest fee. In addition to the guest name, signature, and date; we now require the members name and membership ID associated with the guest to be recorded on the release envelope. You will find the guest fee envelopes in the same place as before.

We hope the will streamline the process and make it easier for members bringing guest. As always the envelope shall be deposited in the mailbox mounted on the deck.

Hello Everyone

Not much to report on the Club Shoots. January rained out. No one showed up for the February shoot, March we had 2 shooters will report their scores in next newsletter.

Had a nice turnout for our Club Banquet which was held at Wilderness Archery. Thanks to Mike Woltering for allowing us to hold this event.

Our Around The World shoot is coming up in April. This year it will be on Easter Sunday. We will be needing a lot of help.

Keep shooting straight

Hello Mayabowhunters

Brad Hastings

This is just a reminder that there will be a work party every Saturday starting at 8 till the day of the around the world shoot. We need all the help that we can get to help set up the backstops and the animals and help maintaining the weeds and grass that grows too quickly from this nice weather that we are having.

Please no smoking on the range and have fun.  
Thanks Range Manager  
Brad Hastings

Hi Maya Members,

With the Around the World shoot set for April, I am getting a move on with donation requests for the raffle. Had some success with the vendors at the Sportsmen's Expo earlier this month (thanks for the help Earles family), walking away with a number of small items and some great contacts to reach out to. If any of you members have something that you'd like to donate as a raffle prize, or know of a company that would be willing to donate, please let me know!

You can reach me at [adriennetay@gmail.com](mailto:adriennetay@gmail.com) or 916-749-0835.

Have a great day,  
Adrienne

## Nor Cal

Nor Cal /  
Legislative

## Nor Cal

What is Nor Cal? The full name for this regional group is Nor Cal Bowhunters. They represent the areas 9 archery/bowhunting clubs and 3 archery pro shops to California Bowmen Hunters State Archery Association (CBHSAA). CBHSAA and Nor Cal are chartered to the National Field Archery Association (NFAA). What do Nor Cal and CBHSAA do for Archery or Bowhunting? There are many facets to their representation of Archery and Bowhunting. CBHSAA is "Dedicated to Promoting and Protecting the Archery and Bowhunting Heritages". This statewide organization speaks for California Archers and Bowhunters in matters concerning Legislation and Regulation since 1943. The Legislative committee of CBHSAA includes a Coordinator, 6 state area reps and each region group has one legislative representative. Archery is a shooting sport so at times issues arise to limit or exclude the shooting of Bows and Arrows for any purpose. CBHSAA will pursue those actions for the benefit of all Archers and Bowhunters.

The next Nor Cal meeting will be Wednesday June 14<sup>th</sup> at Maya's clubhouse, 7pm.

A Nor Cal region club, Yolo Bowmen, has been working with Yolo County to renew their lease at Grasslands County Park. Negotiations are continuing but the archery range has been closed by Yolo County. Update, the range has reopened as they continue negotiations.

The next California Fish and Game Commission meeting (CFGCM) will be held April 26 and 27 in Van Nuys. Agenda has not been posted at this writing. Agenda should include adoption of regulation related to big game tag allocations. A teleconference meeting will be held April 13<sup>th</sup>.

## Community:

Maya Archers has a long tradition of holding events that promote uses of the bow and arrow. Events include tournaments, leagues, shooting instruction, conservation classes and bowhunter education. Partnerships with California Waterfowl Association, Department of Fish and Wildlife, City of Roseville and other groups to hold classes/events at offsite locations or at Maya Archery Range.

The next Maidu All Skills Archery Classes will be Wednesday May 24<sup>th</sup> and June 7<sup>th</sup> starting at 6:30pm to 8:30pm. Summer Archery Camps with Roseville Parks and Recs start mid-June through mid-August. A few of these classes will be held at Maya following range rules and etiquette. Classes can be held at the site in range far right side. During these classes the site in range is still open except for the wall of hay and sometimes the 20 yard target for extra-large groups. If you're unsure of what's open or procedures, ask the lead instructor/coach running the event. Thanks to all the members who have used the site in range while the classes have been held to keep safety as a priority.
