Maya News

October-November 2018

Several Maya longtime members attended a nice Memorial for Wes Babcock on Saturday Sept 8th at his son Norms home in Auburn. Wes was a great asset to our club he loved archery. He was our Lawnmower and weed eater repair person for many years. He helped us at the clubhouse many times. He enjoyed being a part of the Old Timers shooting group on Tuesday and Thursday mornings. He was considered a Traditional shooter who enjoyed the people and the archery events. We will miss your presence at Maya but know you are still a part of us. God Bless you!

Community:

Maya Archers has a long tradition of holding events that promote uses of the bow and arrow. Events include tournaments, leagues, shooting instruction, conservation classes and bowhunter education. Partnerships with California Waterfowl Association, Department of Fish and Wildlife, City of Roseville and other groups to hold classes/events at offsite locations or at Maya Archery Range.

The next Maidu All Skills Archery Classes will be Saturday October 6th and November 17th starting at 10:00am to 12:00pm. Classes can be held at the site in range far right side. During these classes the site in range is still open except for the wall of hay and sometimes the 20 yard target for extra-large groups. If you're unsure of what's open or procedures, ask the lead instructor/coach running the event. Thanks to all the members who have used the site in range while the classes have been held to keep safety as a priority.

Nor Cal

What is Nor Cal? The full name for this regional group is Nor Cal Bowhunters. They represent the areas 9 archery/bowhunting clubs and 3 archery pro shops to California Bowmen Hunters State Archery Association (CBHSAA). CBHSAA and Nor Cal are chartered to the National Field Archery Association (NFAA). What do Nor Cal and CBHSAA do for Archery or Bowhunting?

Nor Cal /
Legislative

There are many facets to their representation of Archery and Bowhunting. CBHSAA is "Dedicated to Promoting and Protecting the Archery and Bowhunting Heritages". This statewide organization speaks for California Archers and Bowhunters in matters concerning Legislation and Regulation since 1943. The Legislative committee of CBHSAA includes a Coordinator, 6 state area reps and each region group has one legislative representative. Archery is a shooting sport so at times issues arise to limit or exclude the shooting of Bows and Arrows for any purpose. CBHSAA will pursue those actions for the benefit of all Archers and Bowhunters. The next Nor Cal meeting will be Wednesday November 14th at Maya's clubhouse; 7pm. No agenda has been set at this writing.

The next California Fish and Game Commission meeting (CFGCM) will be held October 17 and 18 in Fresno. No agenda has been posted at this writing. A Wildlife Resources Committee meeting was held September 20th in Sacramento. Agenda item related to bowhunting equipment specifically minimum draw weight for big game was presented. This would change the current designation of "casting an arrow 130 yards" to a minimum draw weight. The proposal has a range of 30 to 40lbs as the department decides on an exact number to propose to the Fish and Game Commission. This year's state legislature cycle has completed with many bills going to the governor's desk. AB2151 was signed by the governor that reduces the cost of youth big game tags with the exception of deer.

Hello Everyone

Not much to report. I will be posting May, June and July Club Shoot Scores.

We need more members to come out to the Club Shoot. Our Club Championship Will be October 14th. We will be hosting Nor Cal same day and time.

Hope to see you there.

Keep Shooting straight

Wesley H. Babcock
August 25, 1936 – August 14, 2018

On the morning of August 14th, 2018, Wes passed away at his home in Penryn, CA from a massive coronary event. Those of you in the archery world knew him as a range inspector, small engine mechanic, general fixer of all things, and a guy who genuinely enjoyed the sport of archery. You also likely knew him as a friend and someone who was always willing to help anyone out. He especially liked to help kids get started in archery. He was one of the Maya old-timers group, who regularly got together every week to shoot the Maya range.

My sister and I knew him as a very special father and family man. We could not have been luckier in the draw when he chose to be our dad.

He came from very humble beginnings. His father (my grandfather) had an 8th grade education and worked hard to put a roof over their heads and food on the table. In the early years, dad lived on Tanners Lake outside of St Paul MN. He has one sister who is 17 months older than him. They would ice skate on Tanners Lake in the winter. He went to a one room school house, where grades 1 – 8 were all taught together. The school had no running water, and they all drank from the same dipper. The 8th grade boys had the job of stoking the coal furnace to stay warm in the winter.

Dad would spend his summers in Baldwin, Wisconsin, working on his aunt and uncle's farm. The farm had no electricity, no indoor plumbing, and they farmed with horses. His family moved to Bell, CA in the summer of 1948, when he was 11 years old, entering the 6th grade. He walked to the school by himself and enrolled himself, without any assistance from his parents. He attended Bell High School. His first car was a 1928 Model A. He worked at a hardware store when he was in High School and Junior College. He joined the Naval reserves while he was still in High School, where he was an electronics technician, and air crewman in S2F anti-submarine warfare aircraft. He was flying in Navy planes before some of his friends had their drivers' licenses.

He then worked at an electric motor factory designing electric motors. In 1961 he was activated due to the Berlin Crises. This is the year I was born, and my sister was one year old, so mom was not all that happy with him being gone so much, but duty called. He graduated from CSU Los Angeles in 1966, with a Bachelor of Science Degree in Electrical / Electronic Engineering. He worked at Hughes Aircraft as a draftsman. He worked at North American Aviation as an electronics engineer, where he worked on navigation systems for nuclear subs, and Hound Dog Missiles, for the B-52. He developed designs for the second stage of the Saturn booster rocket for the Apollo program. He developed designs on the inertial reference unit for the F-111 fighter aircraft navigation system.

He moved our family to Penryn, CA in October, 1968, where he lived in the same house until his passing. He worked at McClellan AFB supporting the F-111, and various Atmospheric Early Warning systems, until his retirement in 1996.

As a father and husband, dad was more than anyone could ask for. He was always dabbling in agriculture. We raised beef cattle, hogs, chickens, sheep, ducks, fruit trees and always had a garden. We had a passion for bee keeping, at one point having over 20 hives. He cared for mom for many years after she got sick. She passed in January, 2014. This tied him down to the house and prevented him from taking many of the overnight trips to archery shoots, but he never complained. After mom's passing, he made up for lost time by attending multiple western states shoots every year.

As a father, dad was always there for me and my sister. He never missed a single one of my High School football games over a 4-year span. He would adjust his business travel to always be home on Friday nights during the season. He was always somebody I could talk to when things were tough, and when I was overly excited about anything. He was always genuinely interested in hearing about my hunting or fishing adventures. It was always a highlight at the end of my trips when dad would visit and want to hear every detail of my hunt. He never told me to stop talking ☐

I miss him like crazy, but take comfort in knowing that he lived a great life, did what he wanted to do, gave tremendously to others, and left this world without a lot of suffering.

Norm

Nor-Cal Regional Outdoor Championship

Hosted by:

Maya Bowhunters of Roseville

October 14, 2018

Registration: 7:30 am – 8:45 am

Shoot starts at 9:00 am
